

F-1500T

SPECIFICATIONS

Fuel Type	Propane or Natural Gas
BTU/hr	1,500,000 BTU
Low Fire BTU/hr	650,000 BTU
Inlet Pressure	
Propane	11" W.C. MAX
Natural Gas	10" W.C. MIN
Power Requirement	115V/60Hz/1PH/20 AMP
Fan Motor	1 HP
Air Circulation	7,000 CFM
Ignition	Direct Spark Control
Thermostat Control	Yes
L x W x H	61" x 29" x 38"
Air Outlet	26" Diameter
Weight	360 lbs.

FEATURES

- Engineered for easy operation and minimal servicing
- Electronic direct spark ignition control
- Equipped with 100% flame safeguard system
- Designed for commercial applications
- Just turn the fuel selector valve to change the fuel supply
- Temporary heat for construction and maintenance
- Environmentally friendly with minimal combustion impurities
